EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The Compensation Committee of our Board of Directors is comprised of all members of our Board of Directors, except the Chief Executive Officer. The compensation committee's basic responsibility is to review the performance of our management in achieving corporate goals and objectives and to ensure that our executive officers are compensated effectively in a manner consistent with our strategy and compensation practices. Toward that end, the compensation committee oversaw, reviewed and administered all of our compensation, equity and employee benefit plans and programs applicable to executive officers.

Compensation Philosophy and Objectives

We operate in an extremely competitive and rapidly changing industry. We believe that the skill, talent, judgment and dedication of our executive officers are critical factors affecting the long-term value of our company. Therefore, our goal is to maintain an executive compensation program that will fairly compensate our executives, attract and retain qualified executives who are able to contribute to our long-term success, induce performance consistent with clearly defined corporate goals and align our executives' long-term interests with those of our shareholders. We did not identify specific metrics against which we measured the performance of our executive officers. Our decisions on compensation for our executive officers were based primarily upon our assessment of each individual's performance. We relied upon judgment and not upon rigid guidelines or formulas in determining the amount and mix of compensation elements for each executive officer. Factors affecting our judgment include the nature and scope of the executive's responsibilities and effectiveness in leading our initiatives to achieve corporate goals.

4

Mr. Tarantino, our Chief Executive Officer, as the manager of the members of the executive team, assessed the individual contribution of each member of the executive team, other than himself, and, where applicable, made a recommendation to the compensation committee with respect to any merit increase in salary, cash bonus, and option awards. The compensation committee evaluated, discussed and modified or approved these recommendations and conducted a similar evaluation of Mr. Tarantino's contributions to the Company.

During 2007 and beyond, our objective will be to provide overall compensation that is appropriate given our business model and other criteria

to be established by the compensation committee. Some of the elements of the overall compensation program are expected to include competitive base salaries, short-term cash incentives and long-term incentives in the form of options to purchase shares.

We expect that our Chief Executive Officer, as the manager of the members of the executive team, will continue to assess the individual contributions of the executive team and make a recommendation to the compensation committee with respect to any merit increase in salary, cash bonus pool allocations and the award of options to purchase shares. The compensation committee will then evaluate, discuss and modify or approve these recommendations and conduct a similar evaluation of the Chief Executive Officer's contributions to corporate goals and achievement of individual goals.

Role of Executive Officers and Compensation Consultants

Our Chief Executive Officer supports the compensation committee in its work by providing information relating to our financial plans, performance assessments and recommendation for compensation of our executive officers. Mr. Tarantino, while not a member of the compensation committee is Chairman of the Board and the Company's largest individual shareholder. The compensation committee has not in recent years engaged any third-party consultant to assist it in performing its duties, though it may elect to do so in the future.

Principal Elements of Executive Compensation

Our executive compensation program currently consists of the three components discussed below. There is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. Rather, the relevant factors associated with each executive are reviewed on a case-by-case basis to determine the appropriate level and mix of compensation.

Base Salaries. The salaries of our Chief Executive Officer and our other executive officers are established based on the scope of their responsibilities, taking into account competitive market compensation for similar positions based on information available to the compensation committee. We believe that our base salary levels are consistent with levels necessary to achieve our compensation objective, which is to maintain base salaries competitive with the market. We believe that below-market compensation could, in the long run, jeopardize our ability to retain our executive officers. Any base salary adjustments are expected to be based on competitive conditions, market increases in salaries, individual performance, our overall financial results and changes in job duties and responsibilities.

Annual Bonus Compensation. We maintain an annual bonus program. The Company sets aside a portion of operating earnings in excess of a threshold amount as a bonus pool to be allocated after the end of the fiscal year among our supervisory employees, including our executive officers. The allocation of the annual bonus pool among our executive officers is the responsibility of the compensation committee and is determined on the basis of individual performance. The annual bonus program is designed to reward performance in a way that furthers key corporate goals and aligns the interests of management with our annual financial performance. In the last three years no cash bonuses have been paid.

Long-Term Incentive Compensation. The Company has established the 2001 Stock Option Plan (the "Plan") to provide employees of the Company long-term equity incentive compensation, which we believe is in accordance with our objective of aligning the interests of management with our long-term performance. The Plan is administered by the compensation committee. In recent years the committee has granted five year options with an option price equal to the closing market price of the common stock on the date of grant. These options become exercisable one year from the date of grant. Generally the committee does not consider the actual profits from the exercise of options awarded in the past in determining the amount of awards to be made in the future. Rather the committee focuses upon expected amounts that may be received by the executive pursuant to those options in the future.

Share Ownership Guidelines

We currently do not require our directors or executive officers to own a particular amount of our shares, although we do have a policy against directors or officers taking a short position in the Company's stock. The compensation committee is satisfied that the equity holdings among our directors and executive officers are sufficient at this time to provide motivation and to align this group's interests with our long-term performance.

Perquisites

Our executive officers participate in the same 401(k) plan, the same life and health group insurance plans and enjoy the same employee benefits plan as our other salaried employees. In addition, some of our executive officers receive an automobile allowance as described in the Summary Compensation Table.

Post-Termination Protection and Change in Control

We have entered into employment agreements with Messrs. Tarantino, Maddocks and Duncan. Each such agreement provides for the payment of one year's salary upon early termination in lieu of payments under the Company general severance policy.

Financial Restatements

The compensation committee has not adopted a policy with respect to whether we will make retroactive adjustments to any cash or equity-based incentive compensation paid to executive officers (or others) where the payment was predicated upon the achievement of financial results that were subsequently the subject of a restatement. Our compensation committee believes that this issue is best addressed when the need actually arises, when all of facts regarding the restatement are known.

Tax and Accounting Treatment of Compensation

Section 162(m) of the Internal Revenue Code places a limit subject to certain exceptions of \$1 million on the amount of compensation that we may deduct from the U.S. source income in any one year with respect to our Chief Executive Officer, our Chief Financial Officer and each of our next three most highly paid executive officers.

We account for equity compensation paid to our employees, i.e. stock option awards, under the rules of SFAS 123R, which requires us to estimate and record an expense for each award. Accounting rules also require us to record cash compensation as an expense at the time the obligation is accrued.

Summary

The compensation committee believes that our compensation philosophy and programs are designed to foster a performance-oriented culture that aligns our executive officers' interests with those of our shareholders. The compensation committee also believes that the compensation of our executives is both appropriate and responsive to the goal of improving shareholder value.

Compensation Committee Report

The following report is not deemed to be "soliciting material" or to be "filed" with the SEC or subject to the SEC's proxy rules or the liabilities of Section 18 of the Exchange Act, and the report shall not be deemed to be incorporated by reference into any prior or subsequent filing by the Company under the Securities Act of 1933, as amended (the "Securities Act"), or the Exchange Act.

The compensation committee has reviewed and discussed the Compensation Discussion and Analysis set forth above with our management. Based on its review and discussions, the committee recommended to our Board of Directors that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into any Annual Report in Form 10-K filed with the SEC for the fiscal year ended April 30, 2007.

RATIFICATION OF THE SELECTION OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Audit Committee of the Board of Directors has selected J.H. Cohn LLP as the independent certified public accountants to the Company for the fiscal year ending April 30, 2007. The holders of Common Stock are asked to ratify this selection. J.H. Cohn LLP has served the Company in this capacity since

October of 2005. If the shareholders fail to ratify this selection of J.H. Cohn LLP, the Audit Committee will reconsider its action in light of the shareholder vote.

10

On October 6, 2005, Dataram Corporation ("The Company") engaged J.H. Cohn LLP as its independent registered public accounting firm to perform the Company's annual audit for its fiscal year ending April 30, 2006, and review of the Company's interim quarterly financial statements. The Company had previously engaged KPMG LLP as its principal accountants. On October 6, 2005 the Company dismissed KPMG LLP as its principal accountants. The decisions to dismiss KPMG LLP and engage J.H. Cohn LLP were made by the Audit Committee of the Board of Directors.

In connection with the audits of the two fiscal years ended April 30, 2005 and 2004, and the subsequent interim period through October 6, 2005, there were no: (1)disagreements with KPMG LLP on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedures, which disagreements if not resolved to their satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement or (2) reportable events as described by Item 304(a)(1)(v) of Regulation S-K.

The audit reports of KPMG LLP on the consolidated financial statements of Dataram Corporation and subsidiaries as of and for the years ended April 30, 2005 and 2004 did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles.

During the previous two most recent fiscal years and in the subsequent interim period prior to the change of accountants, the Company had not consulted with J.H. Cohn LLP on any matter.

The Company has been advised by J.H. Cohn LLP that representatives of that firm are expected to be present at the Annual Meeting of Shareholders. These representatives will have the opportunity to make a statement, if they so desire, and will also be available to respond to appropriate questions from shareholders.
