Overview

We are an exploration stage company that owns certain mining leases and other mineral rights comprising the Copper King Project, located in the Silver Crown Mining District of southeast Wyoming and the Keystone Project, located in Eureka County, Nevada. The Copper King Project is located in southeastern Wyoming, approximately 32km west of the city of Cheyenne, on the southeastern margin of the Laramie Range. The property covers about five square kilometers that include the S½ Section 25, NE¼ Section 35, and all of Section 36, T.14N., R.70W., Sixth Principal Meridian. Access to within 1.5km of the property is provided by paved and maintained gravel roads. An easement agreement providing access for exploration and other minimal impact activities has been negotiated with Ferguson Ranch Inc. on the S½ Section 25, T14N, R70W, and the W½ Section 30, T14N, R69W. The fee for this easement is \$10,000 per year, renewable each year prior to July 11.

The project is entirely located on land owned and administered by the State of Wyoming. There are no federal lands within or adjoining the Copper King land position. Curt Gowdy State Park lies northwest of the property, partially within Section 26. The state park's southeastern boundary is approximately 300m northwest of the property and approximately 900m northwest of the mineralized area. The Copper King property position consists of two State of Wyoming Metallic and Non-metallic Rocks and Minerals Mining Leases.

The Keystone Project consists of 479 unpatented lode mining claims situated in Eureka County, Nevada. The claims making up the Keystone Project are situated in Eureka County, Nevada in Sections 2-4 and 9-11, Township 23 North, Range 48 East, and Sections 22-28, and 33-36 Township 24 North, all Range 48 East of the Mount Diablo Meridian.

Historically, we have been an independent manufacturer of memory products and provider of performance solutions. On May 23, 2017, we acquired Gold King Corp. and its assets and began operating as a single entity with two reporting businesses- a junior mining business and a memory business.

RISK FACTORS

Investing in our securities involves a high degree of risk. Before making an investment in our securities, you should carefully consider, among other things, the risks described below and elsewhere in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus, including the risks described under “Risk Factors” in our Annual Report for the year ended April 30, 2017, which is incorporated by reference herein. If any of the following risks actually occurs, our business, financial condition, operating results, prospects and ability to accomplish our strategic objectives could be materially harmed. As a result, the trading price of our common stock could decline and you could lose all or part of your investment. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations and the market price of our common stock.

Risks Related to This Offering and Our Securities

The Series E convertible preferred stock ranks junior to our Series C preferred stock and all of our indebtedness and other liabilities.

In the event of our bankruptcy, liquidation, dissolution, or winding-up of our affairs, our assets will be available to pay obligations on the Series E convertible preferred stock only after our Series C preferred stock and all of our indebtedness and other liabilities have been paid. The rights of holders of the Series E convertible preferred stock to participate in the distribution of our assets will rank junior to the prior claims of the holders of our Series C preferred stock and our current and future creditors and any future series or class of preferred stock we may issue that ranks senior to the Series E convertible preferred stock. In addition, the Series E convertible preferred stock effectively ranks junior to all existing and future indebtedness and other liabilities of (as well as any preferred equity interests that may be held by others in the future in) our existing subsidiary and any future subsidiaries. Our existing subsidiary is and any future subsidiaries would be separate legal entities and have no legal obligation to pay any amounts to us in respect of amounts due on the Series E convertible preferred stock. If we are forced to liquidate our assets to pay our creditors, we may not have sufficient assets to pay amounts due on any or all of the Series E convertible preferred stock then outstanding and any other parity securities that we have issued or may issue in the future, in which case, holders of the Series E convertible preferred stock will share ratably with holders of such parity securities. We have incurred and may in the future incur substantial amounts of debt and other obligations that will rank senior to the Series E convertible preferred stock. Certain of our existing or future debt instruments may restrict the authorization, payment, or setting apart of dividends on the Series E convertible preferred stock.

Future offerings of debt or senior equity securities may adversely affect the market price of the Series E convertible preferred stock. If we decide to issue debt or senior equity securities in the future, it is possible that these securities will be governed by an indenture or other instrument containing covenants restricting our operating flexibility. Additionally, any convertible or exchangeable securities that we issue in the future may have rights, preferences, and privileges more favorable than those of the Series E convertible preferred stock and may result in dilution to owners of the Series E convertible preferred stock. We and, indirectly, our stockholders, will bear the cost of issuing and servicing such securities. Because our decision to issue debt or equity securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing, or nature of our future offerings. Thus holders of the Series E convertible preferred stock will bear the risk of our future offerings reducing the market price of the Series E convertible preferred stock and diluting the value of their holdings in us.

Sales of a substantial number of shares of our common stock or securities linked to our common stock in the public market are expected to be made concurrently with this offering and future sales could occur at any time. These sales, or the perception in the market that such sales may occur, could reduce the market price of our common stock.

Concurrently with this offering, we are issuing warrants to purchase shares of our common stock in the Concurrent Warrant Offering. Such issuance may materially and adversely affect the price of our common stock and cause dilution to our existing stockholders.

We may obtain additional funds through public or private debt or equity financings in the near future. If we issue additional shares of common stock or instruments convertible into common stock, it may materially and adversely affect the price of our common stock. In addition, the future conversion of some of all of our Series E convertible preferred stock and the future exercise of some or all of our warrants may dilute the ownership interests of our stockholders, and any sales in the public market of any of our common stock issuable upon conversion or exercise could adversely affect prevailing market prices of our common stock.

We may be required to raise additional funds to finance our operations and remain a going concern; we may not be able to do so when necessary and the terms of any financings may not be advantageous to us.

Our capital requirements continue to depend on numerous factors, including the timing and amount of revenue, the expense to deliver our services, expense for sales and marketing, capital improvements, expense for research and development, and the cost involved in protecting our proprietary rights.

We may require future additional capital infusions including public or private financing, strategic partnerships or other arrangements. However, there can be no assurances that we will complete any financings or strategic alliances, and the terms of such arrangements may not be advantageous to us. Any additional equity financing will be dilutive to our current stockholders and debt financing, if available, may involve restrictive covenants. Our failure to raise capital when needed could materially harm our business, financial condition, and results of operations.

In connection with this offering, we intend to grant certain rights to approve future financings to the lead investor in this offering, for as long as any of the shares of Series E convertible preferred stock remain outstanding. There can be no assurance that such lead investor will provide consent and this requirement may make it difficult for us to raise capital, refinance indebtedness or borrow additional funds.

Our stockholders may experience further dilution if we issue additional shares of common stock in the future.

Any additional future issuances of common stock by us will reduce the percentage of our common stock owned by investors purchasing Series E convertible preferred stock in this offering who do not participate in such future issuances. In most circumstances stockholders will not be entitled to vote on whether or not we issue additional common stock. In addition, depending on the terms and pricing of an additional offering of our common stock and the value of our assets, our stockholders may experience dilution in both the book value and fair value of their shares.

We will have broad discretion in the use of proceeds from this offering and our existing cash, cash equivalents and short-term investments, and may invest or spend the proceeds in ways with which you do not agree and in ways that may not yield a return.

We will have broad discretion in the application of the net proceeds from this offering and our existing cash and cash equivalents. You may not agree with our decisions, and our use of the proceeds and our existing cash and cash equivalents may not improve our results of operation or enhance the value of our common stock. In addition, we may also use a portion of our net proceeds to acquire and invest in complementary products, technologies or businesses; however, we currently have no agreements or commitments to complete any such transaction. Investors will be relying on our judgment regarding the use of the net proceeds from this offering. You will not have the opportunity to influence our management's decisions on how to use the net proceeds from this offering. Our failure to apply the net proceeds of this offering effectively could result in financial losses that could materially impair our ability to pursue our strategy, cause the market price of our common stock to decline, or require us to raise additional capital.

Our stock price may fluctuate.

The price of our common stock has fluctuated in the past and may fluctuate significantly in the future. We believe that factors such as announcements of developments related to our business, our operating results, general conditions in the worldwide economy, our acquisitions, and changes in governmental regulations could cause the price of our common stock to fluctuate substantially. In addition, in recent years the stock market in general, and the market for small capitalization stocks in particular, have experienced extreme price fluctuations which have often been unrelated to the operating performance of the affected companies. Such fluctuations could adversely affect the market price of our common stock.

We are not currently paying dividends and will likely not pay dividends for the foreseeable future.

We have never paid or declared any cash dividends on our common stock. We currently intend to retain all available funds and any future earnings to fund the development and expansion of our business, and we do not anticipate paying any cash dividends on our common stock in the foreseeable future. Any future determination to pay dividends will be at the discretion of our board of directors and will depend on our financial condition, results of operations, capital requirements, contractual restrictions, outstanding indebtedness and other factors that our board of directors deems relevant.

If securities or industry analysts issue an adverse opinion regarding our stock, our stock price and trading volume could decline.

The trading market for our common stock is influenced by the research and reports that securities or industry analysts may publish about us, our business, our market or our competitors. There is currently no research coverage on the Company by securities and industry analysts. If any of the analysts who may initiate coverage on the Company issue a sell rating or for those that may cover us in the future change their recommendation regarding our common stock adversely, or provide more favorable relative recommendations about our competitors, the trading price of our common stock would likely decline. If any analyst who may cover us were to cease coverage of our company or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause the trading price of our common stock or trading volume to decline.

There is no public market for the Series E convertible preferred stock being offered in this offering.

There is no established public trading market for the Series E convertible preferred stock being offered in this offering and we do not expect a market to develop. In addition, we do not intend to apply to list the Series E convertible preferred stock on any national securities exchange or other nationally recognized trading system, including the NASDAQ Capital Market. Without an active market, the liquidity of the Series E convertible preferred stock will be limited.

DILUTION

Purchasers of common stock offered by this prospectus supplement and the accompanying prospectus will suffer immediate and substantial dilution in the net tangible book value per share of common stock. Our net tangible book value as of October 31, 2017 was approximately \$0.38 per share of our common stock. Net tangible book value per share represents the amount of total tangible assets less total liabilities, divided by the number of shares of our common stock outstanding as of October 31, 2017.

After giving effect to the sale by us of 2,500 shares of Series E Preferred Stock, convertible into 2,500,000 shares of common stock, in this offering at a public offering price of \$2,000 per share, and after deducting estimated offering expenses payable by us, our as adjusted net tangible book value as of October 31, 2017, would have been approximately \$10,412,155, or approximately \$0.62 per share. This represents an immediate increase in net tangible book value of approximately \$0.24 per share to existing stockholders and an immediate dilution of approximately \$1.38 per share to new investors purchasing shares of our common stock in this offering. The following table illustrates this per share dilution:

Public offering price per share of common stock		\$	2.00
Net tangible book value per share as of October 31, 2017	\$	0.38	
Increase per share attributable to this offering	\$	<u>0.24</u>	
As adjusted net tangible book value per share as of October 31, 2017 after this offering	\$	<u>0.62</u>	
Dilution per share to new investors participating in this offering	\$	<u>1.38</u>	

This table does not take into account further dilution to new investors that could occur upon the exercise of outstanding options and warrants having a per share exercise price less than the public offering price per share in this offering. In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

The number of shares of our common stock that will be outstanding immediately after the offering is based on 14,156,766 shares outstanding as of October 31, 2017, and excludes:

- 485,774 shares of our common stock issuable upon the exercise of outstanding warrants as of October 31, 2017 at a weighted-average exercise price of \$4.70 per share;
- 1,250,000 shares of common stock issuable upon the exercise of the warrants issued in the Concurrent Warrant Offering;
- 231,458 shares of our common stock issuable upon the exercise of outstanding options as of October 31, 2017 at a weighted-average exercise price of \$3.60 per share;
- 1,200,000 shares of our common stock issuable upon the exercise of outstanding options at a exercise price of \$1.47 per share;
- 237,900 shares of common stock issuable upon the conversion of 2,379 shares of Series C Convertible Preferred Stock; and
- 86,102 shares of common stock reserved for future issuance under our equity incentive plans.

The foregoing illustration does not reflect potential dilution from the exercise of outstanding options or warrants to purchase shares of our common stock.

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference herein and therein contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”) and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). These forward-looking statements involve known or unknown risks, uncertainties and other factors that may or may not be outside our control and that may cause our actual results, performance, or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. Specifically, the actions of suppliers, customers and the NASDAQ Stock Market are generally outside of our control. Our ability to execute our business plans and to generate revenues and operating income are each dependent upon our ability to continue to expand our current businesses, as well as upon general economic conditions and other factors, including some of the factors identified as “Risk Factors” in this prospectus supplement and from time to time in our other SEC filings. You can identify forward-looking statements by terminology such as “may,” “will,” “should,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” “continues,” or the negative of these terms, or other comparable terminology. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, achievements or continued market listing. We do not intend to publicly release any revisions to these forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events, unless required by law.

The forward-looking statements contained herein reflect our views and assumptions only as of the date such forward-looking statements are made. You should not place undue reliance on forward-looking statements. Except as required by law, we assume no responsibility for updating any forward-looking statements nor do we intend to do so. Our actual results, performance or achievements could differ materially from the results expressed in, or implied by, these forward-looking statements. The risks included in this section are not exhaustive. Additional factors that could cause actual results to differ materially from those described in the forward-looking statements are set forth in the section entitled “Risk Factors” beginning on page S-7 of this prospectus supplement.

USE OF PROCEEDS

We estimate that the net proceeds to us from the sale of our securities in this offering will be approximately \$4.9 million after deducting estimated offering expenses payable by us. We have not determined the amounts we plan to spend or the timing of expenditures. As a result, our management will have broad discretion to allocate the net proceeds from the sale of the common stock that we may offer under this prospectus supplement and the accompanying prospectus. Pending their ultimate use, we intend to invest the net proceeds in a variety of securities, including commercial paper, government and non-government debt securities and/or money market funds that invest in such securities.

DIVIDEND POLICY

Other than as set forth below, during the past two years, we have not declared or paid any cash dividends on our capital stock. We currently intend to retain future earnings, if any, and all currently available funds for use in the operation of our business and do not anticipate paying any cash dividends in the foreseeable future. DESCRIPTION OF SERIES E CONVERTIBLE PREFERRED STOCK

The following is a brief summary of certain terms and conditions of the Series E convertible preferred stock and is subject in all respects to the provisions in the certificate of designation for the Series E convertible preferred stock. You should review a copy of the form of the certificate of designation for the Series E convertible preferred stock, which is filed with the SEC by us as an exhibit to a Current Report on Form 8-K in connection with this offering, for a complete description of the terms and conditions applicable to such Series E convertible preferred stock.

Amount of Series E convertible preferred stock. Our board of directors has designated 2,500 shares of preferred stock as Series E convertible preferred stock. Each share of Series E convertible preferred stock has a par value of \$0.001 and a stated value of \$2,000, subject to adjustment as set forth below (the “Stated Value”). The Series E convertible preferred stock is a new class of securities created in connection with this offering.

No Maturity, Sinking Fund or Redemption. The Series E convertible preferred stock has no stated maturity and will not be subject to any sinking fund or mandatory or optional redemption. Shares of the Series E convertible preferred stock will remain outstanding indefinitely unless we decide to otherwise repurchase them or they are converted into our common stock as described below.

Ranking. Except for the Company’s outstanding Series C Preferred Stock (which is Senior Preferred Stock (as defined below)) and to the extent that the Required Holders (as defined below) expressly consent to the creation of Parity Stock or Senior Preferred Stock, all shares of capital stock of the Company shall be junior in rank to all shares of Series E convertible preferred stock with respect to the preferences as to dividends, distributions and payments upon the liquidation, dissolution and winding-up of the Company (such junior stock being “Junior Stock”).

Without the prior express consent of the Required Holders, voting separate as a single class, the Company shall not authorize or issue any additional or other shares of capital stock that is (i) of senior rank to the shares of Series E convertible preferred stock in respect of the preferences as to dividends, distributions and payments upon the liquidation, dissolution and winding-up of the Company (collectively, the “Senior Preferred Stock”), (ii) of pari passu rank to the shares of Series E convertible preferred stock in respect of the preferences as to dividends, distributions and payments upon the liquidation, dissolution and winding-up of the Company (collectively, the “Parity Stock”) or (iii) any Junior Stock having a maturity date (or any other date requiring redemption or repayment of such shares of Junior Stock) that is prior to the date on which any shares of Series E preferred stock remain outstanding.

The “Required Holders” are the holders of at least 66.7% of the then outstanding shares of Series E convertible preferred stock including the lead investor.

Dividends. Holders of Series E convertible preferred stock shall be entitled to receive dividends when and as declared by the Company’s board of directors. Holders of Series E convertible preferred stock also shall participate on an “as converted” basis, with all dividends declared on the Company’s common stock.

Liquidation. Upon the Company’s liquidation, dissolution or winding-up, the holders of shares of Series E convertible preferred stock are entitled to receive in cash out of the assets of the Company, after payment of the liquidation preference for any outstanding shares of Senior Preferred Stock but before any amount is paid to the holders of any of shares of Junior Stock, but pari passu with any Parity Stock then outstanding, an amount per share equal to the greater of:

- the Stated Value of each share on the date of payment; and
- the amount per share such holder would receive if such holder converted the share of Series E convertible preferred stock into common stock immediately prior to the date of such payment.

If the funds available upon any liquidation, dissolution or winding-up are insufficient to pay the full amount due to the holders of Series E convertible preferred stock and holders of shares of Parity Stock, then each holder of shares of Series E convertible preferred stock and each holder of Parity Stock shall receive a percentage of such funds equal to the full amount of such funds payable to such holder as a liquidation preference, in accordance with their respective certificate of designations (or equivalent), as a percentage of the full amount of such available funds payable to all holders of shares of Series E convertible preferred stock and all holders of shares of Parity Stock.

Voluntary Conversion. At any time after issuance of the shares of Series E convertible preferred stock, such shares are convertible into shares of common stock at the per share rate determined by dividing:

- the Stated Value; by
- \$2.00 (the “Conversion Price”), subject to adjustment as described below.

Conversion Failure. If the Company fails to timely deliver shares of common stock issuable upon conversion of shares of Series E convertible preferred stock (a “Conversion Failure”), then:

- the Company shall pay in cash to the Holder on each day after the deadline to deliver the shares of common stock and for which the issuance of such shares of common stock is not timely effected an amount equal to 1% of the product of:
 - the number of shares of common stock not issued to the holder on or prior to the deadline and to which the holder is entitled, multiplied by
 - the closing sale price of the common stock on the trading day immediately preceding the last possible date on which the Company could have timely issued such shares of common stock; and
- the holder of shares of Series E convertible preferred stock may void the conversion of the shares.

In addition, if on or after the deadline to deliver the shares of common stock issuable upon conversion, the holder of shares of Series E convertible preferred stock purchases shares of common stock corresponding to all or any portion of the number of shares of common stock issuable upon such conversion that such holder is entitled to receive from the Company and has not received from the Company in connection with the Conversion Failure, then the Company shall, within two business days after receipt of the holder’s request and in the holder’s discretion, either:

- pay cash to the holder in an amount equal to the holder’s total purchase price (including brokerage commissions and other out-of-pocket expenses) for the shares of common stock so purchased (the “Buy-In Price”), at which point the Company’s obligation to issue and deliver the shares of common stock otherwise issuable upon conversion shall terminate; or
- promptly honor its obligation to so issue and deliver to the shares of common stock and pay cash to such holder in an amount equal to the excess (if any) of the Buy-In Price over the product of:
 - such number of shares of common stock, multiplied by
 - the lowest closing sale price of the common stock on any trading day during the period commencing on the date of the applicable conversion notice and ending on the date of such issuance and payment of the amount described herein for such a buy-in.

Beneficial Ownership Limitation. A holder shall have no right to convert any portion of the Series E convertible preferred stock to the extent that, after giving effect to such conversion, such holder would beneficially own in excess of 4.99% (or, at the election of a holder after providing 61 days' prior written notice to the Company, 9.99%) of the number of shares of common stock outstanding immediately after giving effect to the issuance of shares of common stock upon such conversion.

Reservation of Shares. The Company shall take all action necessary to reserve and keep available out of its authorized and unissued shares of common stock 100% of the number of shares of common stock as shall from time to time be necessary to effect the conversion of all of the shares of Series E convertible preferred stock.

If the Company is prohibited from issuing shares of common stock upon a conversion of any share of Series E convertible preferred stock due to the failure by the Company to have sufficient shares of common stock available out of the authorized but unissued shares of common stock (such unavailable number of shares of common stock being the "Authorization Failure Shares"), in lieu of delivering such Authorization Failure Shares to the holder of such shares of Series E convertible preferred stock, the Company shall pay cash in exchange for the cancellation of such shares convertible into such Authorized Failure Shares at a price equal to the sum of:

- the product of:
 - such number of Authorization Failure Shares; and
 - the closing sale price on the trading day immediately preceding the date the holder delivers the applicable conversion notice with respect to such Authorization Failure Shares to the Company; and
- to the extent the holder purchases (in an open market transaction or otherwise) shares of common stock to deliver in satisfaction of a sale by the holder of Authorization Failure Shares, any brokerage commissions and other out-of-pocket expenses, if any, of the holder incurred in connection therewith.

Fundamental Transactions. The Company may not enter into a fundamental transaction unless the successor entity assumes in writing all of the obligations of the Company under the Certificate of Designations pursuant to written agreements in form and substance satisfactory to the Required Holders and approved by the Required Holders prior to the fundamental transaction, including agreements to deliver to each holder of shares of Series E convertible preferred stock in exchange for such shares a security of the successor entity in such transaction evidenced by a written instrument substantially similar in form and substance to the Certificate of Designations, including having a stated value and dividend rate equal to the stated value and dividend rate of the shares of Series E convertible preferred stock held by the applicable holders and having similar ranking to the shares of Series E convertible preferred stock, and reasonably satisfactory to the Required Holders and the successor entity (including its parent entity) is listed for trading on an "Eligible Market" as defined in the Certificate of Designations.

In addition to the foregoing, upon consummation of a fundamental transaction, the successor entity shall deliver to each holder of shares of Series E convertible preferred stock confirmation that there will be issued upon conversion of such shares at any time after the consummation of such fundamental transaction, in lieu of the shares of common stock (or other securities, cash, assets or other property (except such items still issuable pursuant to distributions to holders of common stock or in connection with the issuance of purchase rights)) issuable upon the conversion of the shares of Series E convertible preferred stock prior to the fundamental transaction, such shares of the common stock (or their equivalent) of the successor entity (including its parent entity) which the holder would have been entitled to receive upon the happening of such fundamental transaction had all the shares of Series E convertible preferred stock held by each holder been converted immediately prior to such fundamental transaction (without regard to any limitations on the conversion of the shares of Series E convertible preferred stock contained in the Certificate of Designations), as adjusted.

Fundamental transactions include:

- the Company or any of its subsidiaries, directly or indirectly:
 - consolidating or merging with or into any other person or entity other than the Company or any of its subsidiaries,
 - selling, leasing, licensing, assigning, transferring, conveying or otherwise disposing of all or substantially all of the properties or assets of the Company and its subsidiaries (taken as a whole) to any other person or entity,
 - allowing any other person or entity to make a purchase, tender or exchange offer that is accepted by the holders of more than 50% of the outstanding shares of voting stock of the Company (not including any shares of voting stock of the Company held by the persons or entities making or party to, or associated or affiliated with the persons or entities making or party to, such purchase, tender or exchange offer),
 - consummating a stock or share purchase agreement or other business combination with any other person or entity whereby such other person or entity acquires more than 50% of the outstanding shares of voting stock of the Company (not including any shares of voting stock of the Company held by the other person or entity or other persons or entities making or party to, or associated or affiliated with the other persons or entities making or party to, such stock or share purchase agreement or other business combination), or
 - reorganizing, recapitalizing or reclassifying the common stock, or
 - any “person” or “group” (as these terms are used for purposes of Sections 13(d) and 14(d) of the 1934 Act and the rules and regulations promulgated thereunder) is or shall become the “beneficial owner” (as defined in Rule 13d-3 under the 1934 Act), directly or indirectly, of 50% of the aggregate ordinary voting power represented by issued and outstanding Voting Stock of the Company.

Rights Upon Distribution. If the Company grants, issues or sells any securities or rights to purchase securities or other property pro rata to the record holders of common stock, then each holder of Series E convertible preferred stock will be entitled to acquire, upon the terms applicable to such rights, the aggregate rights that the holder could have acquired if the holder had held the number of shares of common stock acquirable upon complete conversion of all the shares of Series E convertible preferred stock (without taking into account any limitations or restrictions on the convertibility of such shares). To the extent that a holder’s right to participate in any such right would result in the holder exceeding the maximum ownership percentage described above, then the holder shall not be entitled to participate in such right to such extent (or beneficial ownership of such shares of common stock as a result of such right to such extent) and the right to such extent shall be held in abeyance for the holder until such time, if ever, as its right thereto would not result in the holder exceeding the applicable maximum ownership percentage.

Conversion Price Adjustments. The Conversion Price is subject to adjustment for stock splits, stock dividends, stock combinations, recapitalizations and other similar transactions with respect to the common stock and the Series E convertible preferred stock, respectively.

Voting Rights. Except as otherwise expressly required by law, each holder of shares of Series E convertible preferred stock shall be entitled to vote on all matters submitted to stockholders of the Company and shall be entitled to the number of votes for each share of Series E convertible preferred stock owned equal to the number of shares of common stock into which such shares of Series E convertible preferred stock would convert if such shares of Series E convertible preferred stock converted into shares of common stock at the Market Conversion Price (as defined below) but not in excess of the conversion limitations described above. Except as otherwise set forth in the Certificate of Designations or as required by law, the holders of shares of Series E convertible preferred stock shall vote together with the holders of common stock on all matters and shall not vote as a separate class. The “Market Conversion Price” means, with respect to each share of Series E convertible preferred stock, \$3.10, being the consolidated closing bid price of the common stock on the NASDAQ Capital Market on January 17, 2018.

In addition to any other rights provided by law, except where the vote or written consent of the holders of a greater number of shares is required by law or by another provision of the Company's certificate of incorporation, without first obtaining the affirmative vote at a meeting duly called for such purpose or the written consent without a meeting of the Required Holders, voting together as a single class, the Company shall not:

- amend or repeal any provision of, or add any provision to, its certificate of incorporation or bylaws, or file any certificate of designation or articles of amendment of any series of shares of preferred stock, if such action would adversely alter or adversely change in any respect the preferences, rights, privileges or powers, or restrictions provided for the benefit, of the shares of Series E convertible preferred stock;
- increase or decrease (other than by conversion) the authorized number of shares of Series E convertible preferred stock;
- create or authorize any new class or series of shares that has a preference over or is on a parity with the shares of Series E convertible preferred stock with respect to dividends or the distribution of assets on the liquidation, dissolution or winding-up of the Company;
- purchase, repurchase or redeem any shares of capital stock of the Company junior in rank to the shares of Series E convertible preferred stock (other than pursuant to equity incentive agreements (that have in good faith been approved by the Company's board of directors) with employees giving the Company the right to repurchase shares upon the termination of services);
- pay dividends or make any other distribution on any shares of any capital stock of the Company junior in rank to the shares of Series E convertible preferred stock;
- issue any shares of Series E convertible preferred stock other than pursuant to the purchase agreement pursuant to which the shares of Series E convertible preferred stock are initially issued; or
- circumvent a right of the shares of Series E convertible preferred stock.

Limitations on Indebtedness, Issuances and Financings. Until the date that less than 30% of the shares of Series E convertible preferred stock issued at the closing of this offering remain outstanding, neither the Company nor any subsidiary shall issue, enter into any agreement to issue or announce the issuance or proposed issuance of any shares of common stock or common stock equivalents without the consent of the lead investor; provided, however, following the 6-month anniversary of the closing date of this offering, the Company may issue shares of common stock or common stock equivalents at a price per share of common stock that is greater than \$2.00, subject to adjustment for reverse and forward stock splits and the like.

Fractional Shares. The Company shall not issue any fraction of a share of common stock upon any conversion. If an issuance would result in the issuance of a fraction of a share of common stock, the Company shall round such fraction of a share of common stock up to the nearest whole share.

Market and Exchange Listing. The Series E convertible preferred stock is a new series of securities and currently there is no market for the securities and we do not expect a market to develop. We do not intend to list or qualify for quotation the Series E convertible preferred stock on the NASDAQ Capital Market or any other securities exchange or market.

Registration. The Company shall maintain a register for the shares of Series E convertible preferred stock. The Company may treat the person or entity in whose name any shares of Series E convertible preferred stock is registered on the register as the owner and holder thereof for all purposes, notwithstanding any notice to the contrary, but in all events recognizing any properly made transfers.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (the “SEC”) under the Securities Act of 1933, as amended (the “Securities Act”), using a “shelf” registration process. Under this shelf registration process, we may from time to time sell common stock, preferred stock, debt securities or warrants to purchase common stock, preferred stock or debt securities, or any combination of the foregoing, either individually or as units comprised of one or more of the other securities, in one or more offerings up to a total dollar amount of \$20,000,000. We have provided to you in this prospectus a general description of the securities we may offer. Each time we sell securities under this shelf registration, we will, to the extent required by law, provide a prospectus supplement that will contain specific information about the terms of that offering. We may also authorize one or more free writing prospectuses to be provided to you that may contain material information relating to these offerings. The prospectus supplement and any related free writing prospectus that we may authorize to be provided to you may also add, update or change information contained in this prospectus or in any documents that we have incorporated by reference into this prospectus. To the extent there is a conflict between the information contained in this prospectus and the prospectus supplement or any related free writing prospectus, you should rely on the information in the prospectus supplement or the related free writing prospectus; provided that if any statement in one of these documents is inconsistent with a statement in another document having a later date — for example, a document incorporated by reference in this prospectus or any prospectus supplement or any related free writing prospectus — the statement in the document having the later date modifies or supersedes the earlier statement.

We have not authorized any dealer, agent or other person to give any information or to make any representation other than those contained or incorporated by reference in this prospectus, any accompanying prospectus supplement or any related free writing prospectus that we may authorize to be provided to you. You must not rely upon any information or representation not contained or incorporated by reference in this prospectus or an accompanying prospectus supplement, or any related free writing prospectus that we may authorize to be provided to you. This prospectus, the accompanying prospectus supplement and any related free writing prospectus, if any, do not constitute an offer to sell or the solicitation of an offer to buy any securities other than the registered securities to which they relate, nor do this prospectus, the accompanying prospectus supplement or any related free writing prospectus, if any, constitute an offer to sell or the solicitation of an offer to buy securities in any jurisdiction to any person to whom it is unlawful to make such offer or solicitation in such jurisdiction. You should not assume that the information contained in this prospectus, any applicable prospectus supplement or any related free writing prospectus is accurate on any date subsequent to the date set forth on the front of the document or that any information we have incorporated by reference is correct on any date subsequent to the date of the document incorporated by reference (as our business, financial condition, results of operations and prospects may have changed since that date), even though this prospectus, any applicable prospectus supplement or any related free writing prospectus is delivered or securities are sold on a later date.

As permitted by the rules and regulations of the SEC, the registration statement, of which this prospectus forms a part, includes additional information not contained in this prospectus. You may read the registration statement and the other reports we file with the SEC at the SEC’s web site or at the SEC’s offices described below under the heading “WHERE YOU CAN FIND MORE INFORMATION.”

Company References

In this prospectus, “Dataram,” “the Company,” “we,” “us,” and “our” refer to Dataram Corporation, a Nevada corporation and all subsidiaries, unless the context otherwise requires.

OUR BUSINESS

Since 1967, we have been an independent manufacturer of memory products and provider of performance solutions. We provide customized memory solutions for original equipment manufacturers (OEMs) and compatible memory for leading brands including Cisco, Dell, Fujitsu, HP, IBM, Lenovo and Oracle as well as a line of memory products for Intel and AMD motherboard based servers. We manufacture our memory in-house to meet three key criteria — quality, compatibility and selection — and test our memory for performance and OEM compatibility as part of the production process. With memory designed for over 50,000 systems and with products that range from energy efficient DDR4 modules to legacy SDR offerings, we offer one of the most complete portfolios in the industry. We are a CMTL Premier Participant and ISO 9001:2008 certified. Our products are fully compliant with JEDEC Specifications. Our customers include an international network of distributors, resellers, retailers, OEM customers and end users.

On June 13, 2016, we entered into an Agreement and Plan of Merger, as amended and restated on June 29, 2016, September 14, 2016 and November 28, 2016 for the acquisition of U.S. Gold Corp., a Nevada corporation, and subsidiaries (“U.S. Gold”). U.S. Gold is an exploration stage company that owns certain mining leases and other mineral rights comprising the Copper King gold and copper development project located in the Silver Crown Mining District of southeast Wyoming (the “Copper King Project”) and mining claims related to a gold development project in Eureka County, Nevada (the “Keystone Project”). The closing of the merger is subject to customary closing conditions.

Following the merger, Dataram will operate as a single entity with two reporting businesses – a junior mining business and a memory business.

Our principal executive office is located at 777 Alexander Road, Suite 100, Princeton, New Jersey 08540, our telephone number is (609) 799-0071 and our website address is <http://www.dataram.com>. RISK FACTORS

An investment in our securities involves a high degree of risk. The prospectus supplement applicable to each offering of our securities will contain a discussion of the risks applicable to an investment in our securities. Prior to making a decision about investing in our securities, you should carefully consider the specific factors discussed under the heading “Risk Factors” in the applicable prospectus supplement, together with all of the other information contained or incorporated by reference in the prospectus supplement or appearing or incorporated by reference in this prospectus. You should also consider the risks, uncertainties and assumptions discussed under Item 1A, “Risk Factors,” in our Annual Report on Form 10-K for the fiscal year ended April 30, 2016 and any updates described in our Quarterly Reports on Form 10-Q as well as the Risk Factors related to our pending acquisition of U.S. Gold Corp., set forth in the Current Report on Form 8-K, filed on June 13, 2016, all of which are incorporated herein by reference, and may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future and any prospectus supplement related to a particular offering. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also affect our operations. The occurrence of any of these known or unknown risks might cause you to lose all or part of your investment in the offered securities.

FORWARD-LOOKING STATEMENTS

This prospectus and any accompanying prospectus supplement, including the documents that we incorporate by reference, contains forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Such forward-looking statements include those that express plans, anticipation, intent, contingency, goals, targets or future development and/or otherwise are not statements of historical fact. These forward-looking statements are based on our current expectations and projections about future events and they are subject to risks and uncertainties known and unknown that could cause actual results and developments to differ materially from those expressed or implied in such statements.

In some cases, you can identify forward-looking statements by terminology, such as “expects,” “anticipates,” “intends,” “estimates,” “plans,” “believes,” “seeks,” “may,” “should,” “could” or the negative of such terms or other similar expressions. Accordingly, these statements involve estimates, assumptions and uncertainties that could cause actual results to differ materially from those expressed in them. Any forward-looking statements are qualified in their entirety by reference to the factors discussed throughout this prospectus.

You should read this prospectus and any accompanying prospectus supplement and the documents that we reference herein and therein and have filed as exhibits to the registration statement, of which this prospectus is part, completely and with the understanding that our actual future results may be materially different from what we expect. You should assume that the information appearing in this prospectus and any accompanying prospectus supplement is accurate as of the date on the front cover of this prospectus or such prospectus supplement only. Because the risk factors referred to above, as well as the risk factors referred to above and incorporated herein by reference, could cause actual results or outcomes to differ materially from those expressed in any forward-looking statements made by us or on our behalf, you should not place undue reliance on any forward-looking statements. Further, any forward-looking statement speaks only as of the date on which it is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. New factors emerge from time to time, and it is not possible for us to predict which factors will arise. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. We qualify all of the information presented in this prospectus and any accompanying prospectus supplement, and particularly our forward-looking statements, by these cautionary statements.

USE OF PROCEEDS

Except as described in any prospectus supplement and any free writing prospectus in connection with a specific offering, we currently intend to use the net proceeds from the sale of the securities offered under this prospectus for working capital, capital expenditures and investments and general corporate purposes. We may also use the net proceeds for the repayment, refinancing, redemption or repurchase of current or future indebtedness or capital stock and/or to invest in or acquire complementary or unrelated businesses or technologies, although we have no current commitments or agreements with respect to any such investments or acquisitions as of the date of this prospectus. We have not determined the amount of net proceeds to be used specifically for the foregoing purposes. As a result, our management will have broad discretion in the allocation of the net proceeds and investors will be relying on the judgment of our management regarding the application of the proceeds of any sale of the securities.

Each time we offer securities under this prospectus, we will describe the intended use of the net proceeds from that offering in the applicable prospectus supplement. The actual amount of net proceeds we spend on a particular use will depend on many factors, including, among other things, our future capital expenditures, the amount of cash required by our operations, and our future revenue growth, if any. Therefore, we will retain broad discretion in the use of the net proceeds.

THE SECURITIES WE MAY OFFER

We may offer shares of common stock, shares of preferred stock, debt securities or warrants to purchase common stock, preferred stock or debt securities, or any combination of the foregoing, either individually or as units comprised of one or more of the other securities. We may offer up to \$20,000,000 of securities under this prospectus. If securities are offered as units, we will describe the terms of the units in a prospectus supplement.

DESCRIPTION OF CAPITAL STOCK

General

The following description of our capital stock, together with any additional information we include in any applicable prospectus supplement or any related free writing prospectus, summarizes the material terms and provisions of our common stock and the preferred stock that we may offer under this prospectus. While the terms we have summarized below will apply generally to any future common stock or preferred stock that we may offer, we will describe the particular terms of any class or series of these securities in more detail in the applicable prospectus supplement. For the complete terms of our common stock and preferred stock, please refer to our articles of incorporation, as amended, and our amended and restated bylaws that are incorporated by reference into the registration statement of which this prospectus is a part or may be incorporated by reference in this prospectus or any applicable prospectus supplement. The terms of these securities may also be affected by provisions of the Nevada Revised Statutes. The summary below and that contained in any applicable prospectus supplement or any related free writing prospectus are qualified in their entirety by reference to our articles of incorporation, as amended, and our amended and restated bylaws.

As of the date of this prospectus, our authorized capital stock consisted of 200,000,000 shares of common stock, par value \$0.001 per share, and 50,000,000 shares of "blank check" preferred stock, par value \$0.001 per share, of which 1,300,000 shares are designated as Series A Convertible Preferred Stock, 400,000 shares are designated as Series B Convertible Preferred Stock, shares are designated as Series C Convertible Preferred Stock and 7,402 shares are designated as Series D Convertible Preferred Stock. Our Board of Directors has the authority, without further action by the shareholders, to issue shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions granted to or imposed upon the preferred stock. As of the date of this prospectus, there were 1,204,667 shares of our common stock issued and outstanding, and no shares of Series A Convertible Preferred Stock, Series B Convertible Preferred Stock or Series D Convertible Preferred Stock outstanding. A fixed number of shares of Series C Convertible Preferred Stock will be designated in connection of the closing of our acquisition of U.S. Gold.

Common Stock

The holders of common stock are entitled to one vote per share on all matters to be voted upon by the shareholders and there are no cumulative rights. Subject to preferences that may be applicable to any outstanding preferred stock, the holders of common stock are entitled to receive ratably any dividends that may be declared from time to time by the Board of Directors out of funds legally available for that purpose. In the event of liquidation of the Company, dissolution or winding up, the holders of common stock are entitled to share ratably in all assets remaining after payment of liabilities, subject to prior distribution rights of preferred stock then outstanding. The common stock has no preemptive or conversion rights or other subscription rights. There are no redemption or sinking fund provisions applicable to the common stock. The outstanding shares of common stock are fully paid and non-assessable, and any shares of common stock to be issued upon an offering pursuant to this prospectus and the related prospectus supplement will be fully paid and nonassessable upon issuance. To the extent that additional shares of our common stock may be issued in the future, the relative interests of the then existing shareholders may be diluted.

Preferred Stock

General

Our articles of incorporation, as amended, provide that our Board of Directors has the authority, without further action by the shareholders, to issue shares of preferred stock in one or more series and to fix the rights, preferences, privileges and restrictions granted to or imposed upon the preferred stock. Preferred stock may be designated and issued without authorization of shareholders unless such authorization is required by applicable law, the rules of The NASDAQ Capital Market or other securities exchange or market on which our stock is then listed or admitted to trading.

Our Board of Directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes could, under some circumstances, have the effect of delaying, deferring or preventing a change in control of the Company.

A prospectus supplement relating to any series of preferred stock being offered will include specific terms relating to the offering. Such prospectus supplement will include, to the extent applicable:

- the title and stated or par value of the preferred stock;
- the number of shares of the preferred stock offered, the liquidation preference per share and the offering price of the preferred stock;
- the dividend rate(s), period(s) and/or payment date(s) or method(s) of calculation thereof applicable to the preferred stock;
- whether dividends shall be cumulative or non-cumulative and, if cumulative, the date from which dividends on the preferred stock shall accumulate;
- the provisions for a sinking fund, if any, for the preferred stock;
- any voting rights of the preferred stock;
- the provisions for redemption, if applicable, of the preferred stock;
- any listing of the preferred stock on any securities exchange;
- the terms and conditions, if applicable, upon which the preferred stock will be convertible into our common stock, including the conversion price or the manner of calculating the conversion price and conversion period;
- if appropriate, a discussion of United States federal income tax consequences applicable to the preferred stock; and
- and any other specific terms, preferences, rights, limitations or restrictions of the preferred stock.

The description of preferred stock in this prospectus and the description of the terms of a particular series of preferred stock in any applicable prospectus supplement are not complete. You should refer to any applicable certificate of designation for complete information.

All shares of preferred stock offered hereby will, when issued, be fully paid and nonassessable, including shares of preferred stock issued upon the exercise of preferred stock warrants or subscription rights, if any.

Series A Convertible Preferred Stock

On December 30, 2015, the Company filed with the Secretary of State of the State of Nevada a Certificate of Designation of Preferences, Rights and Limitations of Series A Preferred Stock (the "Series A COD"). The Series A COD is substantially similar to the Certificate of Amendment filed on or about November 10, 2014 with the New Jersey Division of Revenue and Enterprise Services, which originally designated the preferences, rights and limitations of the Company's Series A Convertible Preferred Stock. Pursuant to the Series A COD, the Company designated 1,300,000 shares of its blank check preferred stock as Series A Convertible Preferred Stock. Each share of Series A Convertible Preferred Stock has a stated value of \$5.00 per share. Holders of Series A Convertible Preferred Stock are entitled to receive preferential cumulative dividends at the rate of 8% per annum (equivalent to a fixed annual payment of \$0.40 per share). The dividends are payable in shares of common stock valued at the weighted average price of the Company's common stock over the 10 consecutive trading days ended on the second trading day immediately before the payment date. In the event of a liquidation, dissolution or winding up of the Company, each share of Series A Convertible Preferred Stock will be entitled to a per share preferential payment equal to the stated value, plus accrued and unpaid dividends. Subject to certain limitations as set forth below, each holder may convert the shares of Series A Convertible Preferred Stock into such number of shares of common stock equal to the stated value divided by \$2.00, subject to adjustment. The Company is prohibited from effecting the conversion of Series A Convertible Preferred Stock to the extent that, as a result of such conversion, the holder would beneficially own more than 4.99% of the issued and outstanding shares of the Company's common stock unless the holder elected a different percentage beneficial ownership limit. For so long as any shares of Series A Convertible Preferred Stock are outstanding, certain fundamental corporate actions set forth in the Series A COD require the affirmative vote or consent of holders of at least 90% of the votes entitled to be cast by the holders of Series A Convertible Preferred Stock. On other matters on which holders of common stock are entitled to vote, the holders of Series A Convertible Preferred Stock vote on an as-converted to common stock basis together with the holders of common stock. As of the date of this prospectus, there were no shares of Series A Convertible Preferred Stock outstanding.

Series B Convertible Preferred Stock

On January 21, 2016, the Company filed with the Secretary of State of the State of Nevada a Certificate of Designations, Preferences and Rights of 0% Series B Convertible Preferred Stock (the "Series B COD"). Pursuant to the Series B COD, the Company designated 400,000 shares of its blank check preferred stock as Series B Convertible Preferred Stock. Each share of Series B Convertible Preferred Stock has a stated value of \$12.20 per share. In the event of a liquidation, dissolution or winding up of the Company, each share of Series B Convertible Preferred Stock will be entitled to a per share preferential payment equal to the par value. All shares of capital stock of the Company will be junior in rank to Series B Convertible Preferred Stock with respect to the preferences as to dividends, distributions and payments upon the liquidation, dissolution and winding-up of the Company unless otherwise stated. Holders of Series B Convertible Preferred Stock will be entitled to receive dividends if and when declared by the Company's Board of Directors. In addition, the Series B Convertible Preferred Stock shall participate on an "as converted" basis, with all dividends declared on the common stock. Subject to certain limitations as set forth below, each holder may convert the shares of Series B Convertible Preferred Stock into such number of shares of common stock based on a conversion ratio, the numerator of which shall be the Base Amount (defined below) and the denominator of which shall be the Conversion Price (defined below). "Base Amount" is defined, as of the applicable date of determination, as the sum of (1) the aggregate stated value of the Series B Convertible Preferred Stock to be converted, plus (2) the accrued and unpaid dividends on Series B Convertible Preferred Stock. The "Conversion Price" of the Series B Convertible Preferred Stock is initially \$0.61, subject to adjustment. The Company is prohibited from effecting the conversion of Series B Convertible Preferred Stock to the extent that, as a result of such conversion, the holder would beneficially own more than 4.99%, in the aggregate, of the issued and outstanding shares of the Company's common stock calculated immediately after giving effect to the issuance of shares of common stock upon the conversion of the Series B Convertible Preferred Stock. A holder may increase or decrease the maximum percentage beneficial ownership by providing written notice to the Company; provided, however, that in no event shall the maximum percentage beneficial ownership exceed 9.99%. Holders of the Series B Convertible Preferred Stock do not possess any voting rights except as otherwise required by law. As of the date of this prospectus, there were no shares of Series B Convertible Preferred Stock outstanding.

Series C Convertible Preferred Stock

In connection with the closing of our acquisition of U.S. Gold, we will file with the Secretary of State of the State of Nevada a Certificate of Designation of Preferences, Rights and Limitations of 0% Series C Convertible Preferred Stock (the "Series C COD"). Each share of Series C Convertible Preferred Stock has a stated value of \$100.00 per share and is convertible into such number of shares of common stock equal to the Base Amount (defined below) divided by the Conversion Price (defined below). "Base Amount" means the sum of (1) the stated value of the Series C Convertible Preferred Stock, plus (2) the unpaid dividend amount thereon as of such date of determination. "Conversion Price" means, with respect to each share of Series C Convertible Preferred Stock, as of the conversion date or other applicable date of determination, \$1.00, subject to adjustment. Upon the liquidation, dissolution or winding up of the business of the Company, each holder of Series C Convertible Preferred Stock will be entitled to receive, for each share of Series C Convertible Preferred Stock held an amount in cash equal to, and not more than, the par value before payment is made to any other class or series of capital stock whose terms expressly provide that the holders of Series C Convertible Preferred Stock should receive preferential payment and the Company's common stock; provided, however, that Series B Convertible Preferred Stock shall rank senior to Series C Convertible Preferred Stock. Holders of Series C Convertible Preferred Stock do not possess any voting rights and are entitled to receive dividends when and as declared by the Board of Directors. If at any time the Company grants, issues or sells any options, convertible securities or rights to purchase stock, warrants, securities or other property pro rata to the record holders of any class of common stock purchase rights, then each holder will be entitled to acquire, upon the terms applicable to such purchase rights, the aggregate purchase rights which such holder could have acquired if such holder had held the number of shares of common stock acquirable upon complete conversion of all shares of Series C Convertible Preferred Stock (without taking into account any limitations or restrictions on the convertibility of such shares) held by such holder immediately before the date on which a record is taken for the grant, issuance or sale of such purchase rights, or, if no such record is taken, the date as of which the record holders of common stock are to be determined for the grant, issue or sale of such purchase rights; provided, however, that if the holder's right to participate in any such purchase right would result in such holder exceeding the beneficial ownership limitation (described below), then such holder will not be entitled to participate in such purchase right until such time as the purchase rights would not result in such holder exceeding the beneficial ownership limitation. At no time may shares of Series C Convertible Preferred Stock be converted if such conversion would cause the holder to hold in excess of 4.99% of the issued and outstanding common stock of the Company. The Series C Convertible Preferred Stock is subject to adjustment in the event of stock dividends, splits and fundamental transactions.

Series D Convertible Preferred Stock

On August 4, 2016, the Company filed with the Secretary of State of the State of Nevada a Certificate of Designation of Rights, Powers, Preferences, Privileges and Restrictions of 0% Series D Convertible Preferred Stock (the "Series D COD"). Pursuant to the Series D COD, the Company designated 7,402 shares of its blank check preferred stock as Series D Convertible Preferred Stock. Each share of Series D Convertible Preferred Stock has a stated value of \$136 per share, subject to adjustment. In the event of a liquidation, dissolution or winding up of the Company, each share of Series D Convertible Preferred Stock will be entitled to a per share preferential payment equal to the greater of (a) the Base Amount (defined below) thereof on the date of such payment and (B) the amount per share such holder would receive if such holder converted such Series D Convertible Preferred Stock into common stock immediately prior to the date of such payment. The Series D Convertible Preferred Stock ranks senior to the Company's capital stock other than the Company's Series B Convertible Preferred Stock and Series C Convertible Preferred Stock with respect to the preferences as to dividends, distributions and payments upon the liquidation, dissolution and winding-up of the Company. Holders of Series D Convertible Preferred Stock are entitled to receive dividends if and when declared by the Company's Board of Directors. In addition, the Series D Convertible Preferred Stock participates on an "as converted" basis, with all dividends declared on the common stock. Subject to certain limitations as set forth below, each holder may convert the shares of Series D Convertible Preferred Stock into such number of shares of common stock based on a conversion ratio, the numerator of which shall be the Base Amount (defined below) and the denominator of which shall be the Conversion Price (defined below). "Base Amount" is defined, as of the applicable date of determination, as the sum of (1) the aggregate stated value of the Series D Convertible Preferred Stock to be converted, plus (2) the accrued and unpaid dividends on Series D Convertible Preferred Stock. The "Conversion Price" of the Series D Convertible Preferred Stock is initially \$1.36, subject to adjustment. The Company is prohibited from effecting the conversion of Series D Convertible Preferred Stock to the extent that, as a result of such conversion, the holder would beneficially own more than 4.99%, in the aggregate, of the issued and outstanding shares of the Company's common stock calculated immediately after giving effect to the issuance of shares of common stock upon the conversion of the Series D Convertible Preferred Stock. A holder may increase or decrease the maximum beneficial ownership percentage by providing written notice to the Company; provided, however, that in no event shall the maximum percentage beneficial ownership exceed 9.99%. Holders of the Series D Convertible Preferred Stock are entitled to vote on all matters submitted to the Company's shareholders based on the number of shares of common stock such Series D Convertible Preferred Stock would be convertible into (voting as a class together with common stock) based on a per share conversion price of \$2.72, subject to adjustment. As of the date of this prospectus, there were no shares of Series D Convertible Preferred Stock outstanding.

Dividends

The Company does not anticipate paying dividends in the foreseeable future as the Board of Directors intends to retain future earnings for use in the Company's business. Any future determination as to the payment of dividends will depend upon the Company's financial conditions, results of operations and such other factors as the Board of Directors deems relevant. In addition, the Company's financing agreement with Rosenthal & Rosenthal, Inc. entered into as of November 6, 2013 contains covenants limiting the declaration and distribution of dividends.

Notwithstanding the foregoing, any determination to pay dividends will be at the discretion of the Company's Board of Directors and will depend upon a number of factors, including the Company's results of operations, financial condition, future prospects, contractual restrictions, restrictions imposed by applicable law and other factors the Board of Directors deems relevant.

Authorized but Unissued Shares

Our authorized but unissued shares of common stock and preferred stock will be available for future issuance without your approval. We may use additional shares for a variety of purposes, including future public offerings to raise additional capital, to fund acquisitions and as employee compensation. The existence of authorized but unissued shares of common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Equity Stock Transfer. Its address is 237 West 37th Street, Suite 601, New York, New York 10018.

DESCRIPTION OF DEBT SECURITIES

The following description, together with the additional information we include in any applicable prospectus supplements or free writing prospectuses, summarizes the material terms and provisions of the debt securities that we may offer under this prospectus. We may issue debt securities, in one or more series, as either senior or subordinated debt or as senior or subordinated convertible debt. While the terms we have summarized below will apply generally to any future debt securities we may offer under this prospectus, we will describe the particular terms of any debt securities that we may offer in more detail in the applicable prospectus supplement or free writing prospectus. The terms of any debt securities we offer under a prospectus supplement may differ from the terms we describe below. However, no prospectus supplement shall fundamentally change the terms that are set forth in this prospectus or offer a security that is not registered and described in this prospectus at the time of its effectiveness. As of the date of this prospectus, we have no outstanding registered debt securities. Unless the context requires otherwise, whenever we refer to the "indentures," we also are referring to any supplemental indentures that specify the terms of a particular series of debt securities.

We will issue any senior debt securities under the senior indenture that we will enter into with the trustee named in the senior indenture. We will issue any subordinated debt securities under the subordinated indenture and any supplemental indentures that we will enter into with the trustee named in the subordinated indenture. We have filed forms of these documents as exhibits to the registration statement, of which this prospectus is a part, and supplemental indentures and forms of debt securities containing the terms of the debt securities being offered will be filed as exhibits to the registration statement of which this prospectus is a part or will be incorporated by reference from reports that we file with the SEC.

The indentures will be qualified under the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act. We use the term "trustee" to refer to either the trustee under the senior indenture or the trustee under the subordinated indenture, as applicable.

The following summaries of material provisions of the senior debt securities, the subordinated debt securities and the indentures are subject to, and qualified in their entirety by reference to, all of the provisions of the indenture and any supplemental indentures applicable to a particular series of debt securities. We urge you to read the applicable prospectus supplements and any related free writing prospectuses related to the debt securities that we may offer under this prospectus, as well as the complete indentures that contain the terms of the debt securities. Except as we may otherwise indicate, the terms of the senior indenture and the subordinated indenture are identical.

General

The terms of each series of debt securities will be established by or pursuant to a resolution of our Board of Directors and set forth or determined in the manner provided in an officers' certificate or by a supplemental indenture. Debt securities may be issued in separate series without limitation as to aggregate principal amount. We may specify a maximum aggregate principal amount for the debt securities of any series. We will describe in the applicable prospectus supplement the terms of the series of debt securities being offered, including:

- the title;
- the principal amount being offered, and, if a series, the total amount authorized and the total amount outstanding;
- any limit on the amount that may be issued;
- whether or not we will issue the series of debt securities in global form, and, if so, the terms and who the depository will be;
- the maturity date;
- whether and under what circumstances, if any, we will pay additional amounts on any debt securities held by a person who is not a United States person for tax purposes, and whether we can redeem the debt securities if we have to pay such additional amounts;
- the annual interest rate, which may be fixed or variable, or the method for determining the rate and the date interest will begin to accrue, the dates interest will be payable and the regular record dates for interest payment dates or the method for determining such dates;
- whether or not the debt securities will be secured or unsecured, and the terms of any secured debt;
- the terms of the subordination of any series of subordinated debt;
- the place where payments will be made;
- restrictions on transfer, sale or other assignment, if any;
- our right, if any, to defer payment of interest and the maximum length of any such deferral period;
- the date, if any, after which, and the price at which, we may, at our option, redeem the series of debt securities pursuant to any optional or provisional redemption provisions and the terms of those redemption provisions;
- provisions for a sinking fund purchase or other analogous fund, if any, including the date, if any, on which, and the price at which we are obligated, pursuant thereto or otherwise, to redeem, or at the holder's option, to purchase, the series of debt securities and the currency or currency unit in which the debt securities are payable;
- whether the indenture will restrict our ability or the ability of our subsidiaries to:

- incur additional indebtedness;
 - issue additional securities;
 - create liens;
 - pay dividends or make distributions in respect of our capital stock or the capital stock of our subsidiaries;
 - redeem capital stock;
 - place restrictions on our subsidiaries' ability to pay dividends, make distributions or transfer assets;
 - make investments or other restricted payments;
 - sell or otherwise dispose of assets;
 - enter into sale-leaseback transactions;
 - engage in transactions with stockholders or affiliates;
 - issue or sell stock of our subsidiaries; or
 - effect a consolidation or merger;
- whether the indenture will require us to maintain any interest coverage, fixed charge, cash flow-based, asset-based or other financial ratios;
 - a discussion of certain material or special United States federal income tax considerations applicable to the debt securities;
 - information describing any book-entry features;
 - the applicability of the provisions in the indenture on discharge;
 - whether the debt securities are to be offered at a price such that they will be deemed to be offered at an "original issue discount" as defined in paragraph (a) of Section 1273 of the Internal Revenue Code of 1986, as amended;
 - the denominations in which we will issue the series of debt securities if other than denominations of \$1,000 and any integral multiple thereof;
 - the currency of payment of debt securities if other than U.S. dollars and the manner of determining the equivalent amount in U.S. dollars; and
 - any other specific terms, preferences, rights or limitations of, or restrictions on, the debt securities, including any additional events of default or covenants provided with respect to the debt securities, and any terms that may be required by us or advisable under applicable laws or regulations.

Conversion or Exchange Rights

We will set forth in the applicable prospectus supplement the terms under which a series of debt securities may be convertible into or exchangeable for our common stock, our preferred stock or other securities (including securities of a third party). We will include provisions as to whether conversion or exchange is mandatory, at the option of the holder or at our option. We may include provisions pursuant to which the number of shares of our common stock or preferred stock or other securities (including securities of a third party) that the holders of the series of debt securities receive would be subject to adjustment.

Consolidation, Merger or Sale

Unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, the indentures will not contain any covenant that restricts our ability to merge or consolidate, or sell, convey, transfer or otherwise dispose of all or substantially all of our assets. However, any successor to or acquirer of such assets must assume all of our obligations under the indentures or the debt securities, as appropriate. If the debt securities are convertible into or exchangeable for our other securities or securities of other entities, the person with whom we consolidate or merge or to whom we sell all of our property must make provisions for the conversion of the debt securities into securities that the holders of the debt securities would have received if they had converted the debt securities before the consolidation, merger or sale.

Events of Default under the Indenture

Unless we provide otherwise in the prospectus supplement applicable to a particular series of debt securities, the following are events of default under the indentures with respect to any series of debt securities that we may issue:

- if we fail to pay interest when due and payable and our failure continues for 90 days and the time for payment has not been extended;
- if we fail to pay the principal, premium or sinking fund payment, if any, when due and payable at maturity, upon redemption or repurchase or otherwise, and the time for payment has not been extended;
- if we fail to observe or perform any other covenant contained in the debt securities or the indentures, other than a covenant specifically relating to another series of debt securities, and our failure continues for 90 days after we receive notice from the trustee or we and the trustee receive notice from the holders of at least 25% in aggregate principal amount of the outstanding debt securities of the applicable series; and
- if specified events of bankruptcy, insolvency or reorganization occur.

We will describe in each applicable prospectus supplement any additional events of default relating to the relevant series of debt securities.

If an event of default with respect to debt securities of any series occurs and is continuing, other than an event of default specified in the last bullet point above, the trustee or the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series, by notice to us in writing, and to the trustee if notice is given by such holders, may declare the unpaid principal, premium, if any, and accrued interest, if any, due and payable immediately. If an event of default arises due to the occurrence of certain specified bankruptcy, insolvency or reorganization events, the unpaid principal, premium, if any, and accrued interest, if any, of each issue of debt securities then outstanding shall be due and payable without any notice or other action on the part of the trustee or any holder.

The holders of a majority in principal amount of the outstanding debt securities of an affected series may waive any default or event of default with respect to the series and its consequences, except defaults or events of default regarding payment of principal, premium, if any, or interest, unless we have cured the default or event of default in accordance with the indenture. Any waiver shall cure the default or event of default.

Subject to the terms of the indentures, if an event of default under an indenture shall occur and be continuing, the trustee will be under no obligation to exercise any of its rights or powers under such indenture at the request or direction of any of the holders of the applicable series of debt securities, unless such holders have offered the trustee reasonable indemnity or security satisfactory to it against any loss, liability or expense. The holders of a majority in principal amount of the outstanding debt securities of any series will have the right to direct the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any trust or power conferred on the trustee, with respect to the debt securities of that series, provided that:

- the direction so given by the holder is not in conflict with any law or the applicable indenture; and
- subject to its duties under the Trust Indenture Act, the trustee need not take any action that might involve it in personal liability or might be unduly prejudicial to the holders not involved in the proceeding.

The indentures provide that if an event of default has occurred and is continuing, the trustee will be required in the exercise of its powers to use the degree of care that a prudent person would use in the conduct of its own affairs. The trustee, however, may refuse to follow any direction that conflicts with law or the indenture, or that the trustee determines is unduly prejudicial to the rights of any other holder of the relevant series of debt securities, or that would involve the trustee in personal liability. Prior to taking any action under the indentures, the trustee will be entitled to indemnification against all costs, expenses and liabilities that would be incurred by taking or not taking such action.

A holder of the debt securities of any series will have the right to institute a proceeding under the indentures or to appoint a receiver or trustee, or to seek other remedies only if:

- the holder has given written notice to the trustee of a continuing event of default with respect to that series;
- the holders of at least 25% in aggregate principal amount of the outstanding debt securities of that series have made a written request and such holders have offered reasonable indemnity to the trustee or security satisfactory to it against any loss, liability or expense or to be incurred in compliance with instituting the proceeding as trustee; and
- the trustee does not institute the proceeding, and does not receive from the holders of a majority in aggregate principal amount of the outstanding debt securities of that series other conflicting directions within 90 days after the notice, request and offer.

These limitations do not apply to a suit instituted by a holder of debt securities if we default in the payment of the principal, premium, if any, or interest on, the debt securities, or other defaults that may be specified in the applicable prospectus supplement.

We will periodically file statements with the trustee regarding our compliance with specified covenants in the indentures.

The indentures provide that if a default occurs and is continuing and is actually known to a responsible officer of the trustee, the trustee must mail to each holder notice of the default within the earlier of 90 days after it occurs and 30 days after it is known by a responsible officer of the trustee or written notice of it is received by the trustee, unless such default has been cured or waived. Except in the case of a default in the payment of principal or premium of, or interest on, any debt security or certain other defaults specified in an indenture, the trustee shall be protected in withholding such notice if and so long as the Board of Directors, the executive committee or a trust committee of directors, or responsible officers of the trustee, in good faith determine that withholding notice is in the best interests of holders of the relevant series of debt securities.

Modification of Indenture; Waiver

Subject to the terms of the indenture for any series of debt securities that we may issue, we and the trustee may change an indenture without the consent of any holders with respect to the following specific matters:

- to fix any ambiguity, defect or inconsistency in the indenture;
- to comply with the provisions described above under “DESCRIPTION OF DEBT SECURITIES—Consolidation, Merger or Sale”;
- to comply with any requirements of the SEC in connection with the qualification of any indenture under the Trust Indenture Act;
- to add to, delete from or revise the conditions, limitations and restrictions on the authorized amount, terms or purposes of issue, authentication and delivery of debt securities, as set forth in the indenture;
- to provide for the issuance of, and establish the form and terms and conditions of, the debt securities of any series as provided under “DESCRIPTION OF DEBT SECURITIES—General,” to establish the form of any certifications required to be furnished pursuant to the terms of the indenture or any series of debt securities, or to add to the rights of the holders of any series of debt securities;
- to evidence and provide for the acceptance of appointment hereunder by a successor trustee;
- to provide for uncertificated debt securities and to make all appropriate changes for such purpose;
- to add such new covenants, restrictions, conditions or provisions for the benefit of the holders, to make the occurrence, or the occurrence and the continuance, of a default in any such additional covenants, restrictions, conditions or provisions an event of default or to surrender any right or power conferred to us in the indenture; or
- to change anything that does not adversely affect the interests of any holder of debt securities of any series in any material respect.

In addition, under the indentures, the rights of holders of a series of debt securities may be changed by us and the trustee with the written consent of the holders of at least a majority in aggregate principal amount of the outstanding debt securities of each series that is affected. However, subject to the terms of the indenture for any series of debt securities that we may issue or otherwise provided in the prospectus supplement applicable to a particular series of debt securities, we and the trustee may only make the following changes with the consent of each holder of any outstanding debt securities affected:

- extending the stated maturity of the series of debt securities;
- reducing the principal amount, reducing the rate of or extending the time of payment of interest, or reducing any premium payable upon the redemption or repurchase of any debt securities; or
- reducing the percentage of debt securities, the holders of which are required to consent to any amendment, supplement, modification or waiver.

Discharge

Each indenture provides that, subject to the terms of the indenture and any limitation otherwise provided in the prospectus supplement applicable to a particular series of debt securities, we may elect to be discharged from our obligations with respect to one or more series of debt securities, except for specified obligations, including obligations to:

- register the transfer or exchange of debt securities of the series;
- replace stolen, lost or mutilated debt securities of the series;
- maintain paying agencies;
- hold monies for payment in trust;
- recover excess money held by the trustee;
- compensate and indemnify the trustee; and
- appoint any successor trustee.

In order to exercise our rights to be discharged, we must deposit with the trustee money or government obligations sufficient to pay all the principal of, and any premium and interest on, the debt securities of the series on the dates payments are due.

Form, Exchange and Transfer

We will issue the debt securities of each series only in fully registered form without coupons and, unless we otherwise specify in the applicable prospectus supplement, in denominations of \$1,000 and any integral multiple thereof. The indentures provide that we may issue debt securities of a series in temporary or permanent global form and as book-entry securities that will be deposited with, or on behalf of, The Depository Trust Company, New York, New York, known as DTC, or another depository named by us and identified in a prospectus supplement with respect to that series. See “LEGAL OWNERSHIP OF SECURITIES” below for a further description of the terms relating to any book-entry securities.

At the option of the holder, subject to the terms of the indentures and the limitations applicable to global securities described in the applicable prospectus supplement, the holder of the debt securities of any series can exchange the debt securities for other debt securities of the same series, in any authorized denomination and of like tenor and aggregate principal amount.

Subject to the terms of the indentures and the limitations applicable to global securities set forth in the applicable prospectus supplement, holders of the debt securities may present the debt securities for exchange or for registration of transfer, duly endorsed or with the form of transfer endorsed thereon duly executed if so required by us or the security registrar, at the office of the security registrar or at the office of any transfer agent designated by us for this purpose. Unless otherwise provided in the debt securities that the holder presents for transfer or exchange, we will make no service charge for any registration of transfer or exchange, but we may require payment of any taxes or other governmental charges.

We will name in the applicable prospectus supplement the security registrar, and any transfer agent in addition to the security registrar, that we initially designate for any debt securities. We may at any time designate additional transfer agents or rescind the designation of any transfer agent or approve a change in the office through which any transfer agent acts, except that we will be required to maintain a transfer agent in each place of payment for the debt securities of each series.

If we elect to redeem the debt securities of any series, we will not be required to:

- issue, register the transfer of, or exchange any debt securities of that series during a period beginning at the opening of business 15 days before the day of mailing of a notice of redemption of any debt securities that may be selected for redemption and ending at the close of business on the day of the mailing; or
- register the transfer of or exchange any debt securities so selected for redemption, in whole or in part, except the unredeemed portion of any debt securities we are redeeming in part.

Information Concerning the Trustee

The trustee, other than during the occurrence and continuance of an event of default under an indenture, undertakes to perform only those duties as are specifically set forth in the applicable indenture and is under no obligation to exercise any of the powers given it by the indentures at the request of any holder of debt securities unless it is offered reasonable security and indemnity against the costs, expenses and liabilities that it might incur. However, upon an event of default under an indenture, the trustee must use the same degree of care as a prudent person would exercise or use in the conduct of his or her own affairs.

Payment and Paying Agents

Unless we otherwise indicate in the applicable prospectus supplement, we will make payment of the interest on any debt securities on any interest payment date to the person in whose name the debt securities, or one or more predecessor securities, are registered at the close of business on the regular record date for the interest payment.

We will pay principal of and any premium and interest on the debt securities of a particular series at the office of the paying agents designated by us, except that, unless we otherwise indicate in the applicable prospectus supplement, we will make interest payments by check that we will mail to the holder or by wire transfer to certain holders. Unless we otherwise indicate in the applicable prospectus supplement, we will designate the corporate trust office of the trustee as our sole paying agent for payments with respect to debt securities of each series. We will name in the applicable prospectus supplement any other paying agents that we initially designate for the debt securities of a particular series. We will maintain a paying agent in each place of payment for the debt securities of a particular series.

All money we pay to a paying agent or the trustee for the payment of the principal of or any premium or interest on any debt securities that remains unclaimed at the end of two years after such principal, premium or interest has become due and payable will be repaid to us, and the holder of the debt security thereafter may look only to us for payment thereof.

Governing Law

The indentures and the debt securities will be governed by and construed in accordance with the laws of the State of New York, except to the extent that the Trust Indenture Act is applicable.

Ranking Debt Securities

The subordinated debt securities will be unsecured and will be subordinate and junior in priority of payment to certain other indebtedness to the extent described in a prospectus supplement. The subordinated indenture does not limit the amount of subordinated debt securities that we may issue. It also does not limit us from issuing any other secured or unsecured debt.

The senior debt securities will be unsecured and will rank equally in right of payment to all our other senior unsecured debt. The senior indenture does not limit the amount of senior debt securities that we may issue. It also does not limit us from issuing any other secured or unsecured debt.

Existing Senior and Subordinated Debt

As of May 10, 2017, we had no existing senior or subordinated debt issued under any indenture.

DESCRIPTION OF WARRANTS

The following description, together with the additional information we may include in any applicable prospectus supplements and free writing prospectuses, summarizes the material terms and provisions of the warrants that we may offer under this prospectus, which may consist of warrants to purchase common stock, preferred stock or debt securities and may be issued in one or more series. Warrants may be offered independently or together with common stock, preferred stock or debt securities offered by any prospectus supplement, and may be attached to or separate from those securities. While the terms we have summarized below will apply generally to any warrants that we may offer under this prospectus, we will describe the particular terms of any series of warrants that we may offer in more detail in the applicable prospectus supplement and any applicable free writing prospectus. The terms of any warrants offered under a prospectus supplement may differ from the terms described below. However, no prospectus supplement will fundamentally change the terms that are set forth in this prospectus or offer a security that is not registered and described in this prospectus at the time of its effectiveness.

We will issue the warrants under a warrant agreement that we will enter into with a warrant agent to be selected by us. The warrant agent will act solely as an agent of ours in connection with the warrants and will not act as an agent for the holders or beneficial owners of the warrants. We will file as exhibits to the registration statement of which this prospectus is a part, or will incorporate by reference from a current report on Form 8-K that we file with the SEC, the form of warrant agreement, including a form of warrant certificate, that describes the terms of the particular series of warrants we are offering before the issuance of the related series of warrants. The following summaries of material provisions of the warrants and the warrant agreements are subject to, and qualified in their entirety by reference to, all the provisions of the warrant agreement and warrant certificate applicable to a particular series of warrants. We urge you to read the applicable prospectus supplement and any applicable free writing prospectus related to the particular series of warrants that we sell under this prospectus, as well as the complete warrant agreements and warrant certificates that contain the terms of the warrants.

General

We will describe in the applicable prospectus supplement the terms relating to a series of warrants, including:

- the offering price and aggregate number of warrants offered;
- the currency for which the warrants may be purchased;
- if applicable, the designation and terms of the securities with which the warrants are issued and the number of warrants issued with each such security or each principal amount of such security;
- if applicable, the date on and after which the warrants and the related securities will be separately transferable;
- in the case of warrants to purchase debt securities, the principal amount of debt securities purchasable upon exercise of one warrant and the price at, and currency in which, this principal amount of debt securities may be purchased upon such exercise;
- in the case of warrants to purchase common stock or preferred stock, the number of shares of common stock or preferred stock, as the case may be, purchasable upon the exercise of one warrant and the price at which these shares may be purchased upon such exercise;
- the effect of any merger, consolidation, sale or other disposition of our business on the warrant agreements and the warrants;
- the terms of any rights to redeem or call the warrants;
- any provisions for changes to or adjustments in the exercise price or number of securities issuable upon exercise of the warrants;
- the dates on which the right to exercise the warrants will commence and expire;
- the manner in which the warrant agreements and warrants may be modified;
- United States federal income tax consequences of holding or exercising the warrants;
- the terms of the securities issuable upon exercise of the warrants; and
- any other specific terms, preferences, rights or limitations of or restrictions on the warrants.

Before exercising their warrants, holders of warrants will not have any of the rights of holders of the securities purchasable upon such exercise, including:

- in the case of warrants to purchase debt securities, the right to receive payments of principal of, or premium, if any, or interest on, the debt securities purchasable upon exercise or to enforce covenants in the applicable indenture; or
- in the case of warrants to purchase common stock or preferred stock, the right to receive dividends, if any, or payments upon our liquidation, dissolution or winding up or to exercise voting rights, if any.

Exercise of Warrants

Each warrant will entitle the holder to purchase the securities that we specify in the applicable prospectus supplement at the exercise price that we describe in the applicable prospectus supplement. Unless we otherwise specify in the applicable prospectus supplement, holders of the warrants may exercise the warrants at any time up to the specified time on the expiration date that we set forth in the applicable prospectus supplement. After the close of business on the expiration date, unexercised warrants will become void.

Holders of the warrants may exercise the warrants by delivering the warrant certificate representing the warrants to be exercised together with specified information, and paying the required amount to the warrant agent in immediately available funds, as provided in the applicable prospectus supplement. We will set forth on the reverse side of the warrant certificate and in the applicable prospectus supplement the information that the holder of the warrant will be required to deliver to the warrant agent.

Upon receipt of the required payment and the warrant certificate properly completed and duly executed at the corporate trust office of the warrant agent or any other office indicated in the applicable prospectus supplement, we will issue and deliver the securities purchasable upon such exercise. If fewer than all of the warrants represented by the warrant certificate are exercised, then we will issue a new warrant certificate for the remaining amount of warrants. If we so indicate in the applicable prospectus supplement, holders of the warrants may surrender securities as all or part of the exercise price for warrants.

Enforceability of Rights by Holders of Warrants

Each warrant agent will act solely as our agent under the applicable warrant agreement and will not assume any obligation or relationship of agency or trust with any holder of any warrant. A single bank or trust company may act as warrant agent for more than one issue of warrants. A warrant agent will have no duty or responsibility in case of any default by us under the applicable warrant agreement or warrant, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a warrant may, without the consent of the related warrant agent or the holder of any other warrant, enforce by appropriate legal action its right to exercise, and receive the securities purchasable upon exercise of, its warrants.

DESCRIPTION OF UNITS

The following description, together with the additional information we may include in any applicable prospectus supplements and free writing prospectuses, summarizes the material terms and provisions of the units that we may offer under this prospectus. While the terms we have summarized below will apply generally to any units that we may offer under this prospectus, we will describe the particular terms of any series of units in more detail in the applicable prospectus supplement. The terms of any units offered under a prospectus supplement may differ from the terms described below. However, no prospectus supplement will fundamentally change the terms that are set forth in this prospectus or offer a security that is not registered and described in this prospectus at the time of its effectiveness.

We will file as exhibits to the registration statement of which this prospectus is a part, or will incorporate by reference from a current report on Form 8-K that we file with the SEC, the form of unit agreement that describes the terms of the series of units we are offering, and any supplemental agreements, before the issuance of the related series of units. The following summaries of material terms and provisions of the units are subject to, and qualified in their entirety by reference to, all the provisions of the unit agreement and any supplemental agreements applicable to a particular series of units. We urge you to read the applicable prospectus supplements related to the particular series of units that we sell under this prospectus, as well as the complete unit agreement and any supplemental agreements that contain the terms of the units.

General

We may issue units comprised of one or more debt securities, shares of common stock, shares of preferred stock and warrants in any combination. Each unit will be issued so that the holder of the unit is also the holder of each security included in the unit. Thus, the holder of a unit will have the rights and obligations of a holder of each included security. The unit agreement under which a unit is issued may provide that the securities included in the unit may not be held or transferred separately at any time or at any time before a specified date.

We will describe in the applicable prospectus supplement the terms of the series of units, including:

- the designation and terms of the units and of the securities comprising the units, including whether and under what circumstances those securities may be held or transferred separately;
- any provisions of the governing unit agreement that differ from those described below; and
- any provisions for the issuance, payment, settlement, transfer or exchange of the units or of the securities comprising the units.

The provisions described in this section, as well as those described under “DESCRIPTION OF CAPITAL STOCK,” “DESCRIPTION OF DEBT SECURITIES” and “DESCRIPTION OF WARRANTS” will apply to each unit and to any common stock, preferred stock, debt security or warrant included in each unit, respectively.

Issuance in Series

We may issue units in such amounts and in numerous distinct series as we determine.

Enforceability of Rights by Holders of Units

Each unit agent will act solely as our agent under the applicable unit agreement and will not assume any obligation or relationship of agency or trust with any holder of any unit. A single bank or trust company may act as unit agent for more than one series of units. A unit agent will have no duty or responsibility in case of any default by us under the applicable unit agreement or unit, including any duty or responsibility to initiate any proceedings at law or otherwise, or to make any demand upon us. Any holder of a unit may, without the consent of the related unit agent or the holder of any other unit, enforce by appropriate legal action its rights as holder under any security included in the unit.

We, the unit agents and any of their agents may treat the registered holder of any unit certificate as an absolute owner of the units evidenced by that certificate for any purpose and as the person entitled to exercise the rights attaching to the units so requested, despite any notice to the contrary. See “LEGAL OWNERSHIP OF SECURITIES.”

LEGAL OWNERSHIP OF SECURITIES

We can issue securities in registered form or in the form of one or more global securities. We describe global securities in greater detail below. We refer to those persons who have securities registered in their own names on the books that we or any applicable trustee or depositary or warrant agent maintain for this purpose as the “holders” of those securities. These persons are the legal holders of the securities. We refer to those persons who, indirectly through others, own beneficial interests in securities that are not registered in their own names, as “indirect holders” of those securities. As we discuss below, indirect holders are not legal holders, and investors in securities issued in book-entry form or in street name will be indirect holders.

Book-Entry Holders

We may issue securities in book-entry form, as we will specify in the applicable prospectus supplement. This means securities may be represented by one or more global securities registered in the name of a financial institution that holds them as depositary on behalf of other financial institutions that participate in the depositary's book-entry system. These participating institutions, which are referred to as participants, in turn, hold beneficial interests in the securities on behalf of themselves or their customers.

Only the person in whose name a security is registered is recognized as the holder of that security. Global securities will be registered in the name of the depositary or its participants. Consequently, for global securities, we will recognize only the depositary as the holder of the securities, and we will make all payments on the securities to the depositary. The depositary passes along the payments it receives to its participants, which in turn pass the payments along to their customers who are the beneficial owners. The depositary and its participants do so under agreements they have made with one another or with their customers; they are not obligated to do so under the terms of the securities.

As a result, investors in a global security will not own securities directly. Instead, they will own beneficial interests in a global security, through a bank, broker or other financial institution that participates in the depositary's book-entry system or holds an interest through a participant. As long as the securities are issued in global form, investors will be indirect holders, and not legal holders, of the securities.

Street Name Holders

We may terminate a global security or issue securities that are not issued in global form. In these cases, investors may choose to hold their securities in their own names or in "street name." Securities held by an investor in street name would be registered in the name of a bank, broker or other financial institution that the investor chooses, and the investor would hold only a beneficial interest in those securities through an account he or she maintains at that institution.

For securities held in street name, we or any applicable trustee or depositary will recognize only the intermediary banks, brokers and other financial institutions in whose names the securities are registered as the holders of those securities, and we or any such trustee or depositary will make all payments on those securities to them. These institutions pass along the payments they receive to their customers who are the beneficial owners, but only because they agree to do so in their customer agreements or because they are legally required to do so. Investors who hold securities in street name will be indirect holders, not legal holders, of those securities.

Legal Holders

Our obligations, as well as the obligations of any applicable trustee or third party employed by us or a trustee, run only to the legal holders of the securities. We do not have obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means. This will be the case whether an investor chooses to be an indirect holder of a security or has no choice because we are issuing the securities only in global form.

For example, once we make a payment or give a notice to the holder, we have no further responsibility for the payment or notice even if that holder is required, under agreements with its participants or customers or by law, to pass it along to the indirect holders but does not do so. Similarly, we may want to obtain the approval of the holders to amend an indenture, to relieve us of the consequences of a default or of our obligation to comply with a particular provision of an indenture, or for other purposes. In such an event, we would seek approval only from the legal holders, and not the indirect holders, of the securities. Whether and how the legal holders contact the indirect holders is up to the legal holders.

Special Considerations for Indirect Holders

If you hold securities through a bank, broker or other financial institution, either in book-entry form because the securities are represented by one or more global securities or in street name, you should check with your own institution to find out:

- how it handles securities payments and notices;

- whether it imposes fees or charges;
- how it would handle a request for the holders' consent, if ever required;
- whether and how you can instruct it to send you securities registered in your own name so you can be a legal holder, if that is permitted in the future;
- how it would exercise rights under the securities if there were a default or other event triggering the need for holders to act to protect their interests; and
- if the securities are in book-entry form, how the depositary's rules and procedures will affect these matters.

Global Securities

A global security is a security that represents one or any other number of individual securities held by a depositary. Generally, all securities represented by the same global securities will have the same terms.

Each security issued in book-entry form will be represented by a global security that we issue to, deposit with and register in the name of a financial institution or its nominee that we select. The financial institution that we select for this purpose is called the depositary. Unless we specify otherwise in the applicable prospectus supplement, DTC will be the depositary for all securities issued in book-entry form.

A global security may not be transferred to or registered in the name of anyone other than the depositary, its nominee or a successor depositary, unless special termination situations arise. We describe those situations below under “—Special Situations When A Global Security Will Be Terminated.” As a result of these arrangements, the depositary, or its nominee, will be the sole registered owner and legal holder of all securities represented by a global security, and investors will be permitted to own only beneficial interests in a global security. Beneficial interests must be held by means of an account with a broker, bank or other financial institution that in turn has an account with the depositary or with another institution that does. Thus, an investor whose security is represented by a global security will not be a legal holder of the security, but only an indirect holder of a beneficial interest in the global security.

If the prospectus supplement for a particular security indicates that the security will be issued as a global security, then the security will be represented by a global security at all times unless and until the global security is terminated. If termination occurs, we may issue the securities through another book-entry clearing system or decide that the securities may no longer be held through any book-entry clearing system.

Special Considerations For Global Securities

As an indirect holder, an investor's rights relating to a global security will be governed by the account rules of the investor's financial institution and of the depositary, as well as general laws relating to securities transfers. We do not recognize an indirect holder as a holder of securities and instead deal only with the depositary that holds the global security.

If securities are issued only as global securities, an investor should be aware of the following:

- an investor cannot cause the securities to be registered in his or her name, and cannot obtain non-global certificates for his or her interest in the securities, except in the special situations we describe below;
- an investor will be an indirect holder and must look to his or her own bank or broker for payments on the securities and protection of his or her legal rights relating to the securities, as we describe above;
- an investor may not be able to sell interests in the securities to some insurance companies and to other institutions that are required by law to own their securities in non-book-entry form;

- an investor may not be able to pledge his or her interest in the global security in circumstances where certificates representing the securities must be delivered to the lender or other beneficiary of the pledge in order for the pledge to be effective;
- the depositary's policies, which may change from time to time, will govern payments, transfers, exchanges and other matters relating to an investor's interest in the global security. We and any applicable trustee have no responsibility for any aspect of the depositary's actions or for its records of ownership interests in the global security. We and the trustee also do not supervise the depositary in any way;
- the depositary may, and we understand that DTC will, require that those who purchase and sell interests in the global security within its book-entry system use immediately available funds, and your broker or bank may require you to do so as well; and
- financial institutions that participate in the depositary's book-entry system, and through which an investor holds its interest in the global security, may also have their own policies affecting payments, notices and other matters relating to the securities. There may be more than one financial intermediary in the chain of ownership for an investor. We do not monitor and are not responsible for the actions of any of those intermediaries.

Special Situations When A Global Security Will Be Terminated

In a few special situations described below, a global security will terminate and interests in it will be exchanged for physical certificates representing those interests. After that exchange, the choice of whether to hold securities directly or in street name will be up to the investor. Investors must consult their own banks or brokers to find out how to have their interests in securities transferred to their own names, so that they will be direct holders. We have described the rights of holders and street name investors above.

A global security will terminate when the following special situations occur:

- if the depositary notifies us that it is unwilling, unable or no longer qualified to continue as depositary for that global security and we do not appoint another institution to act as depositary within 90 days;
- if we notify any applicable trustee that we wish to terminate that global security; or
- if an event of default has occurred with regard to securities represented by that global security and has not been cured or waived.

The applicable prospectus supplement may also list additional situations for terminating a global security that would apply only to the particular series of securities covered by the prospectus supplement. When a global security terminates, the depositary, and neither we nor any applicable trustee, is responsible for deciding the names of the institutions that will be the initial direct holders.

PLAN OF DISTRIBUTION

We may sell the securities being offered hereby in one or more of the following ways from time to time:

- through agents to the public or to investors;
- to underwriters for resale to the public or to investors;
- negotiated transactions;

- block trades;
- directly to investors; or
- through a combination of any of these methods of sale.

As set forth in more detail below, the securities may be distributed from time to time in one or more transactions:

- at a fixed price or prices, which may be changed;
- at market prices prevailing at the time of sale;
- at prices related to such prevailing market prices; or
- at negotiated prices.

We will set forth in a prospectus supplement the terms of that particular offering of securities, including:

- the name or names of any agents or underwriters;
- the purchase price of the securities being offered and the proceeds we will receive from the sale;
- any over-allotment options under which underwriters may purchase additional securities from us;
- any agency fees or underwriting discounts and other items constituting agents' or underwriters' compensation;
- any initial public offering price;
- any discounts or concessions allowed or reallocated or paid to dealers; and
- any securities exchanges or markets on which such securities may be listed.

Only underwriters named in the prospectus supplement are underwriters of the securities offered by the prospectus supplement.

If underwriters are used in an offering, we will execute an underwriting agreement with such underwriters and will specify the name of each underwriter and the terms of the transaction (including any underwriting discounts and other terms constituting compensation of the underwriters and any dealers) in a prospectus supplement. The securities may be offered to the public either through underwriting syndicates represented by managing underwriters or directly by one or more investment banking firms or others, as designated. If an underwriting syndicate is used, the managing underwriter(s) will be specified on the cover of the prospectus supplement. If underwriters are used in the sale, the offered securities will be acquired by the underwriters for their own accounts and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Any public offering price and any discounts or concessions allowed or reallocated or paid to dealers may be changed from time to time. Unless otherwise set forth in the prospectus supplement, the obligations of the underwriters to purchase the offered securities will be subject to conditions precedent and the underwriters will be obligated to purchase all of the offered securities if any are purchased.

We may grant to the underwriters options to purchase additional securities to cover over-allotments, if any, at the public offering price, with additional underwriting commissions or discounts, as may be set forth in a related prospectus supplement. The terms of any over-allotment option will be set forth in the prospectus supplement for those securities.

If we use a dealer in the sale of the securities being offered pursuant to this prospectus or any prospectus supplement, we will sell the securities to the dealer, as principal. The dealer may then resell the securities to the public at varying prices to be determined by the dealer at the time of resale. The names of the dealers and the terms of the transaction will be specified in a prospectus supplement.

We may sell the securities directly or through agents we designate from time to time. We will name any agent involved in the offering and sale of securities and we will describe any commissions we will pay the agent in the prospectus supplement. Unless the prospectus supplement states otherwise, any agent will act on a best-efforts basis for the period of its appointment.

We may authorize agents or underwriters to solicit offers by institutional investors to purchase securities from us at the public offering price set forth in the prospectus supplement pursuant to delayed delivery contracts providing for payment and delivery on a specified date in the future. We will describe the conditions to these contracts and the commissions we must pay for solicitation of these contracts in the prospectus supplement.

In connection with the sale of the securities, underwriters, dealers or agents may receive compensation from us or from purchasers of the securities for whom they act as agents in the form of discounts, concessions or commissions. Underwriters may sell the securities to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters or commissions from the purchasers for whom they may act as agents. Underwriters, dealers and agents that participate in the distribution of the securities, and any institutional investors or others that purchase securities directly and then resell the securities, may be deemed to be underwriters, and any discounts or commissions received by them from us and any profit on the resale of the securities by them may be deemed to be underwriting discounts and commissions under the Securities Act.

We may provide agents and underwriters with indemnification against particular civil liabilities, including liabilities under the Securities Act, or contribution with respect to payments that the agents or underwriters may make with respect to such liabilities. Agents and underwriters may engage in transactions with, or perform services for, us in the ordinary course of business.

In addition, we may enter into derivative transactions with third parties (including the writing of options), or sell securities not covered by this prospectus to third parties in privately negotiated transactions. If the applicable prospectus supplement indicates, in connection with such a transaction, the third parties may, pursuant to this prospectus and the applicable prospectus supplement, sell securities covered by this prospectus and the applicable prospectus supplement. If so, the third party may use securities borrowed from us or others to settle such sales and may use securities received from us to close out any related short positions. We may also loan or pledge securities covered by this prospectus and the applicable prospectus supplement to third parties, who may sell the loaned securities or, in an event of default in the case of a pledge, sell the pledged securities pursuant to this prospectus and the applicable prospectus supplement. The third party in such sale transactions will be an underwriter and will be identified in the applicable prospectus supplement or in a post-effective amendment.

To facilitate an offering of a series of securities, persons participating in the offering may engage in transactions that stabilize, maintain, or otherwise affect the market price of the securities. This may include over-allotments or short sales of the securities, which involves the sale by persons participating in the offering of more securities than have been sold to them by us. In those circumstances, such persons would cover such over-allotments or short positions by purchasing in the open market or by exercising the over-allotment option granted to those persons. In addition, those persons may stabilize or maintain the price of the securities by bidding for or purchasing securities in the open market or by imposing penalty bids, whereby selling concessions allowed to underwriters or dealers participating in any such offering may be reclaimed if securities sold by them are repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of the securities at a level above that which might otherwise prevail in the open market. Such transactions, if commenced, may be discontinued at any time. We make no representation or prediction as to the direction or magnitude of any effect that the transactions described above, if implemented, may have on the price of our securities.

Unless otherwise specified in the applicable prospectus supplement, each class or series of securities will be a new issue with no established trading market, other than our common stock, which is listed on The NASDAQ Capital Market. We may elect to list any other class or series of securities on any exchange or market, but we are not obligated to do so. It is possible that one or more underwriters may make a market in a class or series of securities, but the underwriters will not be obligated to do so and may discontinue any market making at any time without notice. We cannot give any assurance as to the liquidity of the trading market for any of the securities.

In order to comply with the securities laws of some states, if applicable, the securities offered pursuant to this prospectus will be sold in those states only through registered or licensed brokers or dealers. In addition, in some states securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and complied with.

Any underwriter may engage in over-allotment, stabilizing transactions, short covering transactions and penalty bids in accordance with the Exchange Act or Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which create a short position. Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum. Short covering transactions involve purchases of the securities in the open market after the distribution is completed to cover short positions. Penalty bids permit the underwriters to reclaim a selling concession from a dealer when the securities originally sold by the dealer are purchased in a covering transaction to cover short positions. Those activities may cause the price of the securities to be higher than it would otherwise be. If commenced, the underwriters may discontinue any of these activities at any time.

Any underwriters who are qualified market makers on The NASDAQ Capital Market may engage in passive market making transactions in the securities on The NASDAQ Capital Market in accordance with Rule 103 of Regulation M, during the business day prior to the pricing of the offering, before the commencement of offers or sales of the securities. Passive market makers must comply with applicable volume and price limitations and must be identified as passive market makers. In general, a passive market maker must display its bid at a price not in excess of the highest independent bid for such security. If all independent bids are lowered below the passive market maker's bid, however, the passive market maker's bid must then be lowered when certain purchase limits are exceeded.

LEGAL MATTERS

The validity of the issuance of the securities offered hereby will be passed upon for us by counsel. Additional legal matters may be passed upon for us or any underwriters, dealers or agents, by counsel that we will name in the applicable prospectus supplement.
